

Liquid Glass Tops Bar 159

Bar 159 has recently undergone an extensive transformation involving one of many Special Finishes systems.

Liquid Glass has been used extensively in the recent refurbishment of Bar 159 in Lincoln Rd, Henderson with stunning results.

Special Finishes has been manufacturing Liquid Glass for many years with stunning results in bars, hotels, and restaurants internationally.

Special Finishes Liquid Granite Flooring System is ideal for this type of installation based its excellent abrasion resistance, durability, resistance to harsh environments.

In addition to being extremely durable and aesthetically pleasing, Liquid Granite offers clients a wide range of colour options, with over 5000 different colour combinations available to suit their specific application. Most British Standard or RAL colours available upon request, including safety yellow (for walk ways) and red for demarcation areas where only restricted access is allowed.

Liquid Granite is ideal for most flooring applications including;

- Automotive Industry
- Food & Beverage Manufacturing
- Warehousing
- Dairy Industry Flooring
- Industrial Processing Plants
- Airports
- Hospitals
- Supermarkets
- Entrance ways
- Universities & Educational Facilities
- Pharmaceutical manufacturing plants

If you have a Hotel, Bar, Restaurant, factory or plant room floor that needs renovating or re-coating, contact us by email at sales@specialfinishes.co.nz or by phone at +649 818 9595
We are only too willing to help!

Special Finishes has also supplied its internationally renowned Multifleck Wall & Liquid Granite Floor Coating Systems for bars hotels and industrial kitchens internationally with stunning results.

Multicryl is a specially formulated waterbased enamel coating system has been applied to ablutions areas to provide excellent durability and ease of cleaning. This system has also been installed to doors and door frames.

The resulting film is not only low odour during application, but provides an extremely durable surface that can cope with the rigours associated with ablution blocks.

This system can also be coated with Graffiti Coat Clear, which is ideal to reduce the costly damage associated with Graffiti, and enhances Multicryl's ability to be easily cleaned.

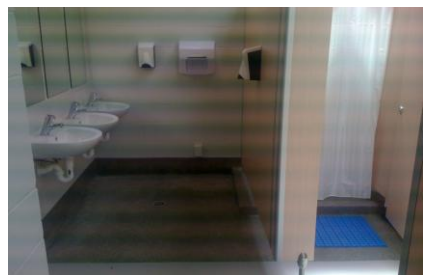

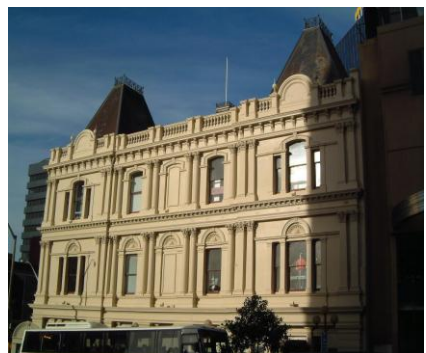

BRINGING TECHNOLOGY TO THE SURFACE
