Stunning Floors for Tai Ping Supermarket!

New Zealand's foremost specialist coating group Special Finishes has recently completed the Fish Preparation, Butchery and BBQ Floors for Tai Ping Supermarket in Botany, Auckland. Based on the excellent floors installed at their Glenfield store, the client selected Special Finishes to work very closely with their Architect to provide a wide range of flooring systems to this site including

- Polished Concrete Floors to the main grocery area floor
- Liquid Granite Flooring to the fish shop
- Armepoxy Flooring to the Butchery and BBQ Floors

The outcome is a completed project with excellent flooring systems specifically selected to suit the environments they are installed in.

BRINGING TECHNOLOGY TO THE SURFACE

Armepoxy is one of many flooring systems manufactured by Special Finishes.
Armepoxy is suitable for flooring in;

- Industrial and Residential Kitchens
- Automotive Industry
- Food & Beverage Manufacturing
- Warehousing
- Dairy Industry Flooring
- Industrial Processing Plants
- Airports & Stadia
- Hospitals
- Supermarkets
- Entrance ways
- Universities & Educational Facilities
- Pharmaceutical manufacturing plants

If you have a car park, factory or plant room floor that needs renovating or re-coating, contact us by email at sales@specialfinishes.co.nz or by phone at +649 818 9595

Liquid Granite is a decorative flooring option to the Armepoxy Range, utilising the same epoxy resin base, providing excellent durability with a touch of class!

For the Armepoxy Flooring Installation, the transformation process of this floor involved diamond grinding the concrete substrate to ensure excellent bond of the Armepoxy Flooring System. Once this process had been completed, Armepoxy Primer was applied, then Special Finishes Optiglue was used to fill major holes and defects in the concrete surface. This was then followed by the installation of the Armepoxy Flooring System. The resulting floor is seamless, without welded joints (often found in Vinyl or Linoleum) and looks stunning in anyone of the 5500 different colour combinations available.

Armepoxy Flooring System

The resulting floor is a stunning transformation, lifting the light reflectivity of the building, making it lighter and a more enjoyable place to live.

In addition to looking stunning, Armepoxy enables easy cleaning of the facility and proven durability, with it having been used for over 30 years in Educational Facilities, and commercial applications as an environmentally sensitive alternative to Vinyl & Linoleum.

BRINGING TECHNOLOGY TO THE SURFACE

Special Finishes also manufacture a complete range of specialist coatings for all substrates including;

- Multifleck Wall Coatings
- Graffiti Protection Coatings (Waterbased and Polyurethane)
- High Build Acrylic Wall Coatings
- Enamel Coatings
- Ceiling & Wall Coatings
- Elastomeric Roof Coatings
- Epoxy & Polyurethane Floor Coatings
- Car Park Deck Waterproofing Systems
- Flexible Jointing Systems
- Marine Paints and Coatings
- Thermal, Condensation Reducing and Sound Insulation Coating Systems
- Steel Coatings
- Waterproofing Systems
- Lacquers, Clear Sealers & Glazes
- Timber Coatings & Stains
- Automotive Products, Fillers, Rust Proofers and Underseals
- Road Marking Coatings
